SAFETY RESPONSE HANDBOOK

Updated July 2021

PURPOSE

This Crisis Plan has been developed to provide some direction in the event of an emergency requiring actions and directions that would benefit from having been established beforehand. Please become familiar with the contents of this Crisis Plan, being certain to clear up any areas of doubt.

School Visitor Information

The Cedar Grove-Belgium School District believes there are many potential benefits that can result from increased interaction with families and the public, and therefore, encourages parents and other community members to visit the district's schools. At the same time, the district has a legitimate interest in avoiding disruption to the educational process, protecting the safety and welfare of the students and staff, and protecting the district's facilities and equipment. A balance must be achieved between the potential benefits and risks associated with the presence of the visitors in school buildings.

Building principals shall have the authority to determine which visits are to be permitted during the school day. Building principals shall also have the discretion to set any appropriate conditions on the nature and extent of such visits. The principals shall consider the purpose of the visit, the impact of the visitor's presence, and the relationship of any visitor to the students.

All visitors must report to the school office for a visitor's pass before being directed or escorted in the building during the school day. Exceptions to the requirement that visitors report and register in the school office in connection with dropping off/picking up their child, a school event/performance, assembly, or similar event that is open to members of the community and that occurs during the school day.

All school visitors shall comply at all times with school district policies, guidelines, and school rules. Regardless of the time of day, the District Administrator, building principal, or his/her designee has the discretionary authority to exclude from the school premises any person who the district determines has no legitimate and approved purpose for being on school grounds, disrupts or appears likely to become a disruption to the educational program, or threatens the health or safety of students, staff or others in the school. Any such individual shall be directed to leave the school premises immediately and law enforcement authorities may be called if necessary.

LARGE GROUP DISTURBANCE/ALTERCATION

**YOUR GOAL IS TO CONTAIN ESCALATION
TO THE EXTENT POSSIBLE UNTIL POLICE ARRIVE**

The Principal/designee shall:

- **Call 911.** Be as clear as possible in identifying the problem or threat.
- Contact the District Office to inform of the nature of the disturbance.
- Assign available staff to assist in helping to maintain a safe environment.
- Assign staff members to meet law enforcement and escort them to the location of the disturbance.

Students are held in class until the situation is under control. Implement Safety Drill Procedures (See Appendix A).

Complete Incident Report (p. 33) at the earliest opportunity and send a copy to the district office.

School Personnel, under the direction of the Principal/designee will:

Clear bystanders and encourage students to “go about their business” and not get involved. Diffuse the situation to the extent possible without threatening the safety of the staff.

District Administrator will:

- Contact the other building principals and inform them of the situation. Students in other buildings will be kept in the buildings and follow the regular instructional schedule.
- Meet with law enforcement and give assistance where possible.
- Act as media contact if the media arrives during the situation or after

MEDIA RELATIONS (CRISIS RELATED ISSUES)

General requests for information related to students, staff or incidents that occur at school shall be referred to the District Administrator or Building Principal. In many cases, legal counsel will be contacted to determine the extent to which information can be shared.

Specific requests for information that you may have as a participant in or as a witness to a crisis situation should be discussed with the District Administrator or Building Principal. **REMEMBER: INDIVIDUALS, WHETHER THEY BE STUDENTS OR STAFF HAVE CERTAIN PRIVACY RIGHTS WHICH MAY BE VIOLATED IF INFORMATION IS SHARED. MINORS IN PARTICULAR HAVE MORE PRIVACY RIGHTS THAN ADULTS DO.**

DO NOT release the names of victims or persons involved in the crisis.

Be cordial when dealing with the media.

Be sure that members of the media who approach you on school grounds have received permission by the administration and have a valid visitor's pass.

When you are authorized to speak to the media, be sure you have the facts and only share what you actually know. Do not speculate.

If you are contacted by the media by telephone, explain that once information can be released, their call will be returned. Ask for their name, phone number and company name. Share this information with either the District Administrator or the Building Principal who will determine whether you or someone else will return the call and when. **MAKE SURE ALL CALLS ARE EVENTUALLY RETURNED.**

Be aware that students may be approached by the media. Suggest to students that they should only comment if they have factual information to share. In most cases, encourage students to refer the media to their Building Principal who will contact the District Administrator.

MEDICAL EMERGENCY

Access the scene for hazards.

Determine if the person in need of assistance:

- is unconscious
- is not breathing
- no signs of circulation

Call out for help and have someone notify the school office.

TORNADOS

If a tornado WARNING is issued for your area:

Take students to designated safety areas:

- Elementary School - downstairs locker room (Appendix F-1)
- Middle School - areas as designated in Appendix F-2
- High School - boys and girls locker rooms (Appendix F-3)

Stay clear of areas with windows and other glass.

Keep students together as a class. Do not allow students to leave your care.

Do NOT dismiss students until warning has been lifted and until principal/designee has confirmed with local law enforcement and school district administration.

If school is in session and it is determined by the District Administrator that school will be canceled early, communication with parents about this decision will be made prior to the release of the students.

In very rare instances it may become necessary to keep students overnight in school because severe weather may make bus travel extremely unsafe.

WEAPON FOUND ON PROPERTY

A WEAPON ON SCHOOL PROPERTY IS A CRIME.

A WEAPON FOUND ON SCHOOL PROPERTY IS EVIDENCE.

The term "weapon" means any object which, in the manner in which it is used, is intended to be used, or is represented, is capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. Weapons include, but are not limited to, firearms (including, but not limited to firearms as defined in 18 U.S.C. 921(a)(3)), guns of any type, including air and gas- powered guns (whether loaded or unloaded), knives, (subject to the exceptions as indicated below) razors, with unguarded blades, clubs, electric weapons, metallic knuckles, martial arts weapons, ammunition, and explosives (Board Policy #7217).

Exceptions include:

- The weapon is under the control of law enforcement.
- The item is approved by the building administrator as part of a class or individual presentation under teacher supervision.
- The item is part of theatrical props used in appropriate performance settings.
- Starter pistols used in appropriate sporting events.
- A lockback knife having a blade no longer than three inches in length, a knife lawfully used for food consumption or preparation, or a knife used for a lawful purpose within the scope of the person's employment.

Do not handle the weapon unless necessary.

If handling the weapon is necessary, do so with care. Always wear rubber gloves or use a cloth to touch.

Have another staff member stay with the weapon.

Notify Principal/designee.

Principal/designee calls 911 if deemed necessary.

Cover the weapon from the view of the public (cloth, wastebasket, box).

Close off student traffic from the area of the weapon. Consider implementing Safety Drill Procedures (Appendix A).

Principal/designee assigns someone to meet law enforcement to lead to weapon location.

Principal/designee contacts the district office and informs them of the situation.

Refer to the Media Relations section (p. 14) of this handbook if necessary.

Principal/designee completes Incident Report (p. 33) at the earliest opportunity and sends a copy to the district office.

WEAPON SUSPECTED ON STUDENT

Possession of a weapon on school property is a crime and is best handled by law enforcement personnel

The safety of students and staff is always first.
apprehension of violators and weapon retrieval is second

Treat all weapon related information (rumor) to be accurate

The term "weapon" means any object which, in the manner in which it is used, is intended to be used, or is represented, is capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. 4. Starter pistols used in appropriate sporting events.
5. A lockback knife having a blade no longer than three inches in length, a knife lawfully used for food consumption or preparation, or a knife used for a lawful purpose within the scope of the person's employment.

Action Steps:

Notify Principal/designee. Consider implementing Safety Drill Procedures (Appendix A) and associated ALICE provision (Appendix G).

Principal/designee calls 911.

Do not attempt to stop a suspect if in flight from the building is attempted. Avoid confrontation.

Principal/designee attempts, in a non-confrontational way, to move the student to a private office near an exit.

Notify the district office and advise of the situation and steps taken.

Refer to the Media Relations section (p. 14) of this handbook if necessary.

Principal/designee completes Incident Report (p. 33) at the earliest opportunity and sends a copy to the district office.

APPENDIX A

Cedar Grove-Belgium School District

Consistency is crucial for a safety plan to work in a district. All three schools in our school district have developed common language and procedures for lockdown drills. The procedures below outline the steps that will be taken in a **safety drill** situation.

Safety Drill

Safety drills can be used in situations when we need to keep hallways clear. For example, we may have a student or staff member in the hall that needs assistance (ambulance or other rescue personnel), a fight in the hall, a mess in the hall (sick, blood, spill, etc.), or any other situation that would require the hallways to be clear.

Safety Drill Procedures

- Staff will be directed to “go to **safety drill**” procedure.
- Staff and students stay in the room. Lock doors (no one leaves the classroom).
- If students are out of the room, they are to be directed back to their classrooms immediately.
- Students and teachers continue with class instruction until an “All Clear” call is issued, or another verbal ending to the **safety drill** procedures.

ALICE

1. A - ALERT
2. L - LOCKDOWN
3. I - INFORM
4. C - COUNTER
5. E - EVACUATE

Alert - Always the first step. After recognizing there is a violent intruder or indicators such as gunshots, screaming, loud noises or observed gun or weapon in hand. Utilize phone, school PA system, and word of mouth.

After an alert, ALICE allows options. There is no specific order. Use acquired information to make solid decisions.

Lockdown - Utilize when it is recognized an escape is not an option “right now”. Used to buy time. When in a lockdown state, barricade the door, spread out within the room (do not huddle),

look for alternate routes to evacuate, do not open the door for anyone, dial 911 when the opportunity presents itself.

Inform - This step is a continuation of the alert. The goal is to pass on information in real time using all available resources.

Counter - Utilize to create opportunities for survival. The goal is to take back control. This is NOT a negotiation. To counter is a personal choice. Use as a last resort. Use anything to interrupt the focus/mindset of the intruder.

Evacuate - Know the layout of your building and the nearest exit. You have the authority to exit the building. Know how to operate and break windows if necessary. Evacuate to appropriate rally points and take count of students.

APPENDIX H

Crisis Response - Student Cell Phone Protocol

- 1. Silence your phone - You do not want the intruder to uncover your location if your cell phone rings.**
- 2. Be aware of your surroundings. Your full concentration is necessary. All senses need to be on the alert.**
- 3. In the event you cannot evacuate and after you are in a safe hiding place, text a parent to inform him/her about your location (classroom, hallway area, etc.) so your parent can inform school officials or law enforcement who will seek you out.**
- 4. Do not videotape or post on social media. Videotaping is distracting to you and posting on social media can cause confusion with information law enforcement is acquiring via remote access and on site. It is important for law enforcement to obtain “real time” information from “real time” sources.**

YOUR FULL COOPERATION IS ESSENTIAL TO EVERYONE’S SAFETY!

SCHOOL VISITOR PROCEDURES

All school visitors will enter through the west elementary main school entrance (Door 1) and be “buzzed in” at the elementary school office door.

- Visitors will ring the doorbell to the elementary school office, located next to the office door.
- Administrative Assistants or other elementary school personnel in the office will “buzz” the door open in order for the visitor to gain entry to the elementary school office.
- All visitors will sign into the visitor’s log located on the high school counter and receive a visitor badge.
- Upon confirmation of guests with the appropriate staff member, the visitor will either be escorted to the location or will be allowed to travel to the needed building location.
- Upon dismissal, all visitors will sign out of the visitor’s log and will return the visitor’s badge to the personnel in the elementary school office.

SAFETY DRILLS AND PROCEDURES

From the District’s School Crisis Response Handbook (Appendix A)

Consistency is crucial for a safety plan to work in a district. All three schools in our school district have developed a common language and procedures for safety drills. The procedures below outline the steps that will be taken in a **safety drill** situation.

Safety Drills

Safety drills can be used in situations when hallways must be kept clear. For example, a student or staff member in the hall may need assistance (ambulance or other rescue personnel), a fight in the hall, an unsafe

or unsanitary mess in the hall (sick, blood, spill, etc.), or any other situation that would require hallways to be clear.

Safety Drill Procedures

- Staff will be directed to “go to **safety drill**” procedure.
- Staff and students stay in the room. Lock doors (no one leaves the classroom).
- If students are out of the room, they are to be directed back to their classrooms immediately.
- Students and teachers continue with class instruction until an “All Clear” call is issued, or another verbal ending to the **safety drill** procedures.

ALICE PROCEDURES

From the District’s School Crisis Response Handbook (Appendix G)

Prior to any scheduled practice of ALICE procedures and/or education of ALICE protocol, parents will be notified three days in advance by the building principal or district office. The acronym for ALICE specifies the following potential options for staff and students during a school crisis:

1. A - ALERT
2. L - LOCKDOWN
3. I - INFORM
4. C - COUNTER
5. E - EVACUATE

(A) Alert - Always the first step. After recognizing there is a violent intruder or indicators such as gunshots, screaming, loud noises or observed gun or weapon in hand. Utilize phone, school PA system, and word of mouth. After an alert, ALICE allows options. There is no specific order. Use acquired information to make solid decisions.

(L) Lockdown - Utilize when it is recognized an escape is not an option “right now”. Used to buy time. When in a lockdown state, barricade the door, spread out within the room (do not huddle), look for alternate routes to evacuate, do not open the door for anyone, dial 911 when the opportunity presents itself.

(I) Inform - This step is a continuation of the alert. The goal is to pass on information in real time using all available resources.

(C) Counter - Utilize to create opportunities for survival. The goal is to take back control. This is NOT a negotiation. To counter is a personal choice. Use as a last resort. Use anything to interrupt the focus/mindset of the intruder.

(E) Evacuate - Know the layout of your building and the nearest exit. You have the authority to exit the building. Know how to operate and break windows if necessary. Evacuate to appropriate Rally Point and take count of students. Updated class rosters will be kept at the Rally Point for easy access. Rosters and emergency contact information can be accessed via Infinite Campus as needed.

LOCATION SPECIFIC PROCEDURES

Lunchroom and Playgrounds at the Elementary

- To clear space when a safety drill is implemented, students in the lunchroom or on the playground will proceed to homerooms under the direction of supervising staff.

- Classroom teachers will immediately proceed to homeroom locations if not already present in the assigned homeroom.
- Students and staff remain in assigned homeroom locations until safety drill is complete and the all clear is given to resume regularly scheduled activities.
- In the event students are in the lunchroom or on the playground and there is an imminent physical threat requiring implementation of ALICE, supervising staff will follow the procedures as outlined by ALICE protocol.

Other Large Group Gathering Spaces in the Elementary

Large group gathering spaces in the elementary are identified as the elementary library, elementary little theater, middle school auditorium, and elementary and middle school gymnasiums (including athletic events, concerts, and co-curriculars).

- In the event students are in a large group gathering and a safety drill is implemented, supervising staff will remain with students at their current location with activities continuing. Students and staff remain in their location until safety drill is complete and the all clear is given to resume regularly scheduled activities.
- In the event students are in a large group gathering and there is an imminent physical threat requiring implementation of ALICE, supervising staff will follow the procedures as outlined by ALICE protocol.

SAFETY DRILL CONFIRMATION

Building principals must complete a “School Safety Drill Confirmation” Form upon completion of a safety drill and within one week of conducting the safety drill. One copy of the form must be kept on file in the District and Elementary School Offices.

GO TO BAGS

“Go To Bags” will be kept in the main office of the building, hanging next to a main office or health room door. Go To Bags will be equipped with updated class rosters, medications needed for life threatening situations (examples include epipen, insulin, etc.), and any other emergency materials as needed. Administrative Assistants will have the job of grabbing the Go To Bags when exiting if they are able. If not able, other office personnel in the vicinity will grab these Go To Bags.

REUNIFICATION PROCEDURES

When ALICE procedures are implemented, an evacuation will ultimately occur and students and staff will proceed to the school Rally Point or alternate safe location. In the event that an evacuation takes place, parents will be reunified with their children at the specified location.

Designated areas will be assigned to account for students and staff. Attendance will be taken in designated areas by homeroom, grade level, or other assigned staff member. Updated student homeroom lists will be kept at a designated location within the Rally Point.

A sign out area will be established by school personnel for parent(s)/legal guardian(s) to check their children out and sign that they are leaving the Rally Point and the parent(s)/legal guardian(s) is assuming supervision responsibilities. Children will not be released to anyone except a parent or legal guardian unless appropriate

documentation (email, phone call, text, letter, etc.) is provided specifically stating the wishes of the parent or legal guardian.

UTILIZING 911 SERVICES

The building principal or another office staff member will call 911 if able and aware of the situation/threat. If the threat is discovered by another staff member in the building, such as a classroom teacher, aide, or another staff member, said staff member will call 911 when able to do so.

STAFF DEBRIEFING PLAN

Staff will be debriefed on any Safety Drill via email or other form of communication as applicable. If an evacuation occurred or ALICE was implemented, staff would be debriefed in a designated meeting location at the Rally Point or other designated meeting location if the Rally Point was not used. If the building is available, the designated meeting point for debriefing is the library.

FOLLOW UP COMMUNICATIONS TO PARENTS

Parents will receive follow-up communication within 48 hours following an ALICE event via parent communication tools (Examples include Infinite Campus messaging tools, etc.). Explanation of the event and actions taken by district staff and emergency personnel will be detailed in said communications.

INFORMING THE DISTRICT OFFICE

Building principals will remain in regular contact with staff in the district office as to events as they occur and regularly scheduled safety drills. Documentation of all safety drills, including narratives and evaluation of each drill, will be sent to the district office within one week of completion. In the event that ALICE procedures were necessary, the district office will be notified throughout the process as needed via radio communication and/or phone communication. Building administrators will meet within 48 hours to summarize and discuss the safety procedures that occurred

APPENDIX K

Middle School Safety Plan Cedar Grove-Belgium Middle School

SCHOOL VISITOR PROCEDURES

All school visitors will enter through the middle school commons entrance on the west side of the building and be “buzzed in” at the middle school office door.

- Visitors will ring the doorbell to the middle school office, located next to the office door.
- Administrative Assistants or other middle school personnel in the office will “buzz” the door open in order for the visitor to gain entry to the middle school office.
- All visitors will sign into the visitor’s log located on the middle school counter and receive a visitor badge.
- Upon confirmation of guests with the appropriate staff member, the visitor will either be escorted to the location or will be allowed to travel to the needed building location.

Children will not be released to anyone except a parent or legal guardian unless appropriate

documentation (email, phone call, text, letter, etc.) is provided specifically stating the wishes of the parent or legal guardian.

UTILIZING 911 SERVICES

The building principal or another office staff member will call 911 if able and aware of the situation/threat. If the threat is discovered by another staff member in the building, such as a classroom teacher, aide, or another staff member, said staff member will call 911 when able to do so.

STAFF DEBRIEFING PLAN

Staff will be debriefed on any Safety Drill via email or other form of communication as applicable. If an evacuation occurred or ALICE was implemented, staff would be debriefed in a designated meeting location at the Rally Point or other designated meeting location if the Rally Point was not used. If the building is available, the designated meeting point for debriefing is the library.

FOLLOW UP COMMUNICATIONS TO PARENTS

Parents will receive follow-up communication within 48 hours following an ALICE event via parent communication tools (Examples include Infinite Campus messaging tools, etc.). Explanation of the event and actions taken by district staff and emergency personnel will be detailed in said communications.

INFORMING THE DISTRICT OFFICE

Building principals will remain in regular contact with staff in the district office as to events as they occur and regularly scheduled safety drills. Documentation of all safety drills, including narratives and evaluation of each drill, will be sent to the district office within one week of completion. In the event that ALICE procedures were necessary, the district office will be notified throughout the process as needed via radio communication and/or phone communication. Building administrators will meet within 48 hours to summarize and discuss the safety procedures that occurred.
